

A-500 Air Brush

stainless steel cone shaped nozzle is self centering and easy to remove. .5mm size for fine lines to backgrounds, and thin to heavier paints

oversized smooth action trigger provides superior control of air and fluid for those difficult projects

A-500 Air Brush

This versatile kit is excellent for a wide range of applications. The A-500 air brush has a smooth dual action trigger for best air & fluid control. It is external mix for superior finish, and uses a bottom feed for use with different sized containers.

Paints which can be sprayed include acrylics, enamels, lacquers, inks, water colours and automotive paints, etc.

Excellent for artists, sign makers, auto touch-up, taxidermists, hobbyists, furniture detailers, etc.

Nozzle system is stainless steel and tool-less for easy cleaning. It is also self centering for accurate shutoff.

Order # L011-049

A-500 Gravity Feed Air Brush

It has the great features of our A-500 combined with a built-in 10cc gravity container for convenience and flexibility. This airbrush is ideal for precision work and frequent color changes. The A-500 comes with airbrush, 1/8 BSP-M to M5 adaptor for heavy duty hose and a nozzle tool. Hose and adaptor for air compressor must be purchased separately, please see accessories below.

Order # L011-047

- very quiet operation
- oil-less piston design
- up to 60 psi, 0.71 cfm

MC-80 Mini Air Compressor

provides clean oil free air for air brush applications. This compressor is very quiet and smooth running and is built with uncompromising quality. It is capable of higher pressures for use in pressurizing paint tanks or car tires. The pressure regulator bleeds off excess air pressure and maintains an air flow for piston cooling.

Order # L011-058

Specifications:

Voltage/Amp draw 110 volt/1.0 Amp
 Power: 1/8 hp
 Motor protection thermal switch
 Max. pressure: 80 psi
 Working pressure: 0-60 psi
 Air volume: 0.71 cfm (20 lpm)
