

# Portable Electric Air-Airless

New for 2010!

Order complete as shown, pn# L014-400

- 1) L-1095 electric diaphragm pump delivers a wide range of pressure with no fluctuation.
- 2) Hopper feed system makes cleanup and color changes easy. A 20 litre suction system is also included for larger jobs. (not shown)
- 3) GM3600 gun sets a new standard in performance.
- 4) Powerful compressor will support up to 100ft of hose.
- 5) Welded steel cart frame with large tires is durable and easy to move on the jobsite.
- 5) Air regulator, air pressure and fluid pressure gauges are included with this system.

### Portable Aircoat Specifications

|                      |                     |
|----------------------|---------------------|
| Pump type .....      | hydraulic diaphragm |
| Pressure range ..... | 100-2800 psi        |
| Maximum output ...   | 0.33 GPM            |
| Maximum tip .....    | 0.017"              |
| Motor specs .....    | 1/3HP, TEFC         |
| Max air pressure ... | 35 psi              |
| Voltage .....        | 115V/60Hz           |
| Amp draw (typical)   | 10.5 A              |
| Max. hose length ... | 100 ft.             |
| System weight .....  | 56 lb (25.5kg)      |
| Order number .....   | L014-400            |

### GM3600 Specifications

|                     |                 |
|---------------------|-----------------|
| Body .....          | forged anodized |
| Max. pressure ..... | 3600 psi        |
| Wetted parts .....  | SS, TC, Tef     |
| Tip Supplied .....  | 13/40           |
| Trigger .....       | formed steel    |
| Air cap .....       | aluminium       |
| Weight .....        | 19 ounces       |

### FEATURES

- Self contained air assisted airless system
- Much faster than typical HVLP turbine units
- High transfer efficiency with excellent control
- Lightweight, portable, easy to set up and spray
- Included suction hose draws from 20 litre pail
- System is easy to clean and maintain
- Handles low to medium viscosity materials
- Versatile - sprays a wide variety of material on a wide variety of surfaces
- Supported by Lemmer; parts and service across Canada for over 40 years.

### APPLICATIONS

- Stains, Solutions, Varnishes, Primers, Lacquers, Catalyzed Urethane
- Onsite coating of wood doors, trim and cabinetry
- Metal furniture, doors, cabinets, lockers
- Fine wood furniture
- Industrial and farm equipment
- Machinery and HVAC
- Aircraft and boats

### BENEFITS

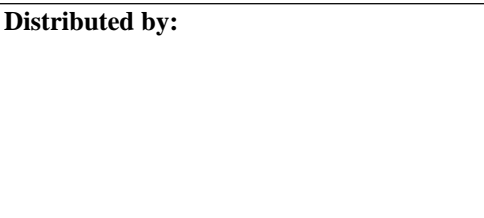

- Increased productivity
- Superior finish quality
- Cleaner work environment
- Reduced material use

### GM3600 Features

- 1) Standard tip for crisp shutoff. Unique design can be reverse-installed for easy cleaning.
- 2) Air control fine tunes atomization and fan width.
- 3) This top of the line gun has a very light trigger pull.
- 4) Standard contractor gun filter for easy service.

### System Accessories

|  |          |
|--|----------|
| 50 ft H.P. fluid hose .....              | L031-074 |
| Hose connector .....                     | L035-001 |
| Air hose, 50 ft. ....                    | L035-119 |
| Connector for air hose .....             | L035-501 |
| Spray tip, 009-40 .....                  | L014-311 |
| Spray tip, 011-20 .....                  | L014-312 |
| Spray tip, 011-40 .....                  | L014-314 |
| Spray tip, 013-40 (supplied w/gun) ..... | L014-318 |
| Spray tip, 013-60 .....                  | L014-319 |
| Gun filters, 5 pack, 200m .....          | L032-100 |
| Gun filters, 5 pack, 100m .....          | L032-101 |
| Viscosity cup (Ford #4) .....            | L034-191 |
