

LEMMER

Handy Striper

- The fastest and most economical way to paint parking lot lines. Gun can easily be mounted sideways for curbs.
- Save money and improve the appearance of your building and parking lot.
- Uses your existing spray system to apply professional road marking paint, latex, or alkyd.
- For Professionals.
- Easy to use.
- Spray gun and hose not included. Simply use your existing ones. This kit does include a 419 tip specially designed to spray clean-edged lines.

Versatile, the spray gun is quick to release for spraying walls, fences, and ceilings, etc.
(gun and tip housing not included)

Angled handle for comfortable spraying.

(spray hose not included)

Heavy duty aluminum handle for accurate control.

Quick release cast aluminum gun mount.

Solid handle mount for commercial use.

Large diameter wheels help to produce a constant line.

L005-400 Complete kit
(without gun / housing / hose)

Photo is shown with the optional L50 gun, BB tip housing and 1/4" fibre hose.

- Make professional quality lines yourself and save! One gallon of professional road marking paint you will produce about 1000' of 4" line (5 mil wet).
- Airless flat spray pattern gives a clear sharp edge without using shields.
- Your standard airless gun may be removed in seconds for hand spraying of stencils and curbs, etc.
- Line width control from 1" to 8".
- Sprays one 20' line in approximately 10 seconds. (4" x 5 mil)
- All you need to add to this kit is an airless sprayer capable of handling a .019 tip, an airless hose, and airless gun with BB tip housing. A smaller tip is available for smaller pumps.
