DC-7700 Line-Pro with two guns. Order #L045-100

DC-7700 Line-Pro

Pump features:

- High performance slow stroke design.
- Direct Drive piston pump.
- Consistent spray pattern.
- Variable pressure control.
- Dependable 6.0 HP Subaru motor.
- Large tungsten seats with SS balls.
- Self adjusting mixed PE & leather packings.
- Excellent for thick or abrasive materials.
- Low maintenance
- Easy to clean.

DC-7700 Gas Line-Pro. Incredible power comes from a Direct Drive system that powers a large piston paint pump for smooth and consistent spray fan width. The system's 1.3 gpm flow rate will handle up to one .035 tip or two .025's! The tips included are 417's (.017-08"). Power is provided by a gas 6.0 hp Subaru and will run approximately 8 hours on one tank of fuel at a low RPM setting. Its heavy duty cart has large air filled tires.

Features include a parking brake, locking front swivel wheel, choice of triggering the left or right side gun, or spraying both guns at the same time. The guns can be mounted on either side and in any position. The guns are also easily removed for remote spraying.

Specifications

Model	DC-7700-LP
Max. tip (1 gun)	1 x .035
Max. tip (2 guns)	2 x .025
Supplied tip size	4-19
