

Lemmer Pressure Pots

2 Q
L080-200

2 quart pot with regulator. Wide mouth for easy clean-up. No leak high quality threading. Max 50psi.

2.25 G
L011-075

2-1/4 gallon pot with dual regulators. Teflon lined tank for easy clean-up. Disposable liner included. Max 50psi.

2.25 G A
L011-087

2-1/4 gallon pot with dual regulators and air powered agitator. Removable inner tank for easy clean-up. Max 80psi.

5 G
L011-088

5 gallon pot with single regulator and manual crank agitator. Removable inner tank for easy clean-up. Max 80psi.

5 G A
L011-089

5 gallon pot with single regulator and air powered agitator. Removable inner tank for easy clean-up. Max 80psi.

10 G A
L011-091

10 gallon pot with single regulator and air powered agitator. Removable inner tank for easy clean-up. Max 80psi.

2.25 G A SS
L011-060

2.25 gallon Stainless Steel pot with dual regulators and air powered agitator. Removable inner tank for easy clean-up. Max 80psi.

10 G A SS
L011-062

5 gallon Stainless Steel pot with dual regulators and air powered agitator. Removable inner tank for easy clean-up. Max 80psi.

Features:

- Heavy duty clamps
- Resists tipping
- Low maintenance
- Affordable pricing
- Easy to clean

Applications:

- Lacquers and stains
- Enamel
- Foundation coatings
- Asphalt coatings
- Latex
- Glue
- And much more!

Heavy duty commercial pressure pots

are inexpensive and easy to use. They provides a steady material flow for air guns. They resist tipping and are easy to clean with an inner teflon coated pot on the 2.25G, and removeable containers on the other models. For use with all standard coatings such as: lacquer, enamel, stain, latex, epoxy, glue, etc. A one gallon paint can will fit inside the 2.25 gallon pot. The agitated versions have safe air motor power and are controled by an air flow valve.

Available accessories:

Lemmer air spray fluid hoses are rubber type with nylon inner linings to withstand commercial coatings. The air hose is also a quality rubber type for best life and flexibility. Pressure feed air guns are available in conventional and HVLP types:

A-910 air gun pressure feed (1.4mm)	L015-013
A-711 HVLP pressure feed with venturi (1.4mm) ...	L080-506
5' x 1/4 twin line hose assembly	L080-727
15' x 1/4 twin line hose assembly	L080-728
50' x 1/4 twin line hose assembly	L080-725
25' x 3/8 twin line hose assembly (1/4 air)	L080-729
50' x 3/8 twin line hose assembly (1/4 air)	L080-661
25' x 1/4 air supply hose (compressor to pot)	L035-121
50' x 3/8 air supply hose (compressor to pot)	L035-122
Formed liner (2.25 gallon pot)	L011-586

Typical system setup.
