Attn: Anthony Alexander Sheng

Hi Anthony:

As per our conversation at the tool and woodworking show in Toronto I have included a strong letter of endorsement of the LEMMER T90 Sprayer.

Since I got my new Lemmer t90 upgrading from the T50 I am able to accomplish so much more.

As far as production goes, the Lemmer T90 gives my company the ability to spray paint or varnish cutting down on the cost.

As I find I don't have to buy a product to thin down the paint as I was previously.

The volume of spray gives me the advantage on getting the job done twice as fast, with full customer satisfaction.

I would like to express how the Lemmer Company puts out exceptional products. This Company is certainly great to deal with and an asset to my company.

They are # 1 in my books when it comes to needing a great and reliable product.

Thanks for your time Anthony.

Take care.

Ben Crawford
