

## A-910G Gun with PPS

This is a high quality SKU: L015024 conventional paint spray gun designed for use with the new waterborne products. The A-910 SS features all stainless steel internal fluid passages, fluid fittings, needle and nozzle. Featured on the suction version is the 3M PPS container system which is fully compatible with all products and allows spraying at any angle without fan flutter. The disposable liner makes clean up fast and easy!

Spray fan width control is adjusted at the top back of gun, horizontal and vertical pattern is controlled at the air cap and material flow is controlled at the back of the gun. Materials which can be sprayed include varnish, urethane, lacquer, automotive paint, epoxy, enamel, stain, latex, oil base and heavier exotic coatings when using the larger nozzle set. The gravity feed gun comes with a 650ml container. The fluid needle and seat are made of stainless steel and the entire gun can be placed in a gun cleaning cabinet. The gravity gun is supplied with a 1.4 mm general purpose nozzle.

<b>Applications:</b>	<b>Features:</b>	<b>Specifications:</b>	<b>Nozzle Sizes available:</b>
