

PARTS LIST & DIAGRAM

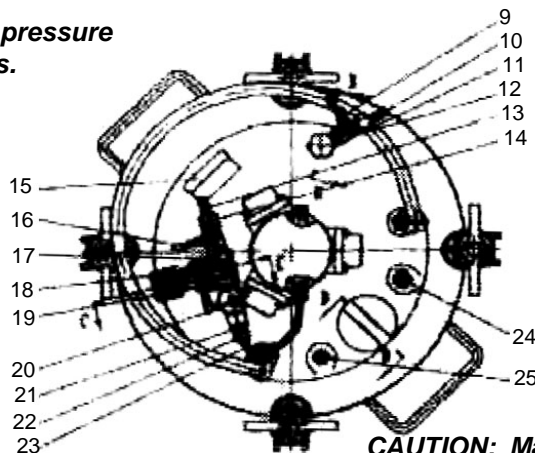

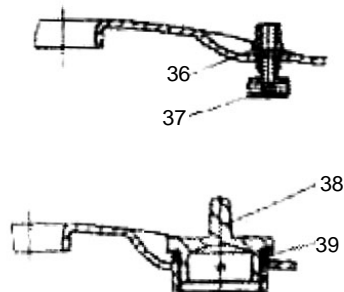

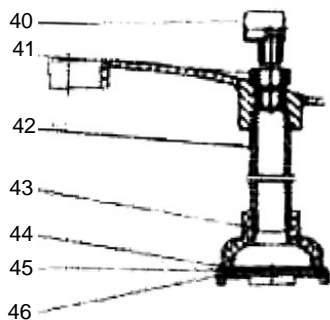

2.5 GALLON PRESSURE POT (TEFLON GREY)

CAUTION: Do not use wrench or pliers to tighten knobs. Hand tighten only.

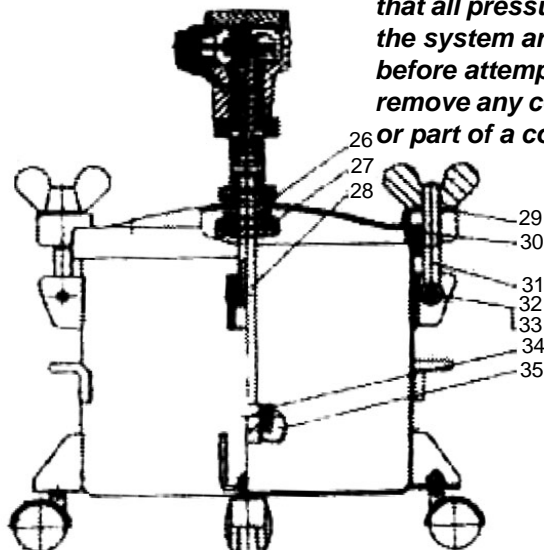

Warning: Never allow pressure in pot to exceed 50 lbs.

WARNING: Make sure nuts and bolts are properly tightened before pressurizing the tank!

CAUTION: Make certain that all pressures within the system are relieved before attempting to remove any component or part of a component.

WARNING: Failure to follow instructions on proper assembly and use of a paint tank may possibly result in damage to property or personal injury. This unit must be assembled as indicated in these instructions. Only those parts supplied with this unit should be used. These parts are safety performance engineered. Any substitutions may be counter-protective and dangerous.

Pos.	Part nos.	Description	Qty.	Pos.	Part nos.	Description	Qty.
	L011-078	2.25 Gallon pressure pot w/Agitator		25	L011-	Air relief valve	1
1	L011-380	Air agitator assembly	1	26	L011-	Sealing ring	1
2	L011-	Handle	1	27	L011-	Nut	1
