Pipe Cleaning Nozzle Rotary

Pipe cleaning nozzles. SKU: L044400

Hook up to your water pressure washer (min. 3 gpm @ 800 psi) and save time and money cleaning plugged drain lines and pipes! Its small size makes it perfect for clearing small diameter pipes (5/8" - 10" id).

The rotary nozzle is compact and spins up to 9000 rpm! This fast spinning motion also helps pull the hose into the pipe to reach the obstruction and "cut" at it with its unique water jetting action.

- Nozzles have 1/8"bsp(f) thread.
- Maximum pressure limit is 1500 psi max to prevent overspeed and excess wear.
- spins up to 9000 rpm
